

Luis Lucas Reche

Applied AI Engineer

Palma, Spain · Remote

rechedev@hotmail.com · luisreche.dev · github.com/rechedev9 · linkedin.com/in/luisrecheamado

I use LLMs and coding agents such as Claude Code and Codex to ship software faster, with a human in the loop: I review and approve what ships. I build end to end, across backend, web, mobile, desktop and infrastructure.

EXPERIENCE

Applied AI Engineer, Agentero

Apr 2026 to present

US network that gives independent insurance agents carrier access and the software to run an agency. Spain-based.

- Own marketplace features and critical internal tooling end to end.
- Infrastructure on Google Cloud, backend services in Go and the marketplace interface in Next.js.

Freelance software engineer, SocialPro

2025 to present

Gaming and esports agency that connects creators with brands in Spain and Latin America. Freelance since before their website launched.

- socialpro.es: designed and built the website, a brand portal and the first internal CRM.
- Piroboom: replaced the WordPress site of a fireworks shop in Elche, a client of the agency. Live in production.

Freelance product engineer, RecheDev

2021 to present

My freelance practice. It began with PC optimisation for competitive gaming. Now I take products from first meeting to production.

- ClipHub: a Windows app that turns a CS2 demo into an edited video, built for SocialPro as their software consultant. 100+ users.
- Berrus: Discord notifications, faster SQL and an Electron desktop client for another team's browser role-playing game.

PROJECTS

- **ClipHub**: Windows app that turns a Counter-Strike 2 demo into an edited video of the best plays. Go, Next.js and Electron. 130 releases. cliphub.gravityroom.app
- **SocialPro**: website, brand portal and first internal CRM of a gaming and esports agency. Next.js and PostgreSQL. socialpro.es
- **Piroboom**: an 82 MB PDF catalogue turned into a searchable 16-page web reader. 110 unit and 42 browser tests. pirotecniaelche.es
- **Gravity Room**: free strength training tracker that calculates the weights for the next session. React, Expo, Elysia, Postgres. gravityroom.app
- **Honey Encryption Proxy**: local proxy that swaps proprietary names for stand-ins before a request reaches an LLM API.
- **riskforge**: portfolio project. Insurance quote gateway in Go, Terraform for Cloud Run, Spanner and Pub/Sub.

STACK

AI and agents	Claude Code · Codex · MCP servers · Skills and plugins · Multi-agent workflows · Human approval gates
Backend	Go · Bun · Elysia · PostgreSQL · Drizzle · SQLite
Web	TypeScript · React · Next.js · TanStack · Astro · Tailwind CSS
Mobile and desktop	Expo · React Native · Electron · Rust core with Uniffi
Infrastructure	Docker · GCP · Terraform · Vercel · GitHub Actions

EDUCATION

- Higher technical diploma in web application development (DAW) · 2024 to 2026
- Harvard CS50, Introduction to Computer Science · 2024
- University of Helsinki, Java Programming MOOC · 2024
- Anthropic, Claude Code in Action · 2026
